

Reuse/Recycle Directory

Have you ever had to throw something away that still worked or was still in good condition but you just didn't want it anymore and you didn't know what else to do with it?

This directory will help you find alternatives to throwing your "garbage" into the landfill. We have compiled a list of organizations and companies that take used materials - from used batteries to old tires - and either reuse them or recycle them. Some items in this directory are materials that are hazardous to the environment and need to be disposed of differently than your regular household garbage. This directory will tell you where and how to dispose of things like left over paint, expired prescription pills and used oil in your municipality.

Listings By Material

Antifreeze

Can be recycled/reused/disposed of at:

Household Hazardous Waste Round-ups

Call your local Municipal Office

Appliances – White Goods (Fridges, Freezers, Stoves, Washing Machines)

Can be recycled at:
